TAKE THE STRAIN
OF SETTING UP
A NEW HOME

Jersey Electricity

Help where you need it

Setting up a new home means a myriad of things to do. That's why we at Jersey Electricity have teams of experts to help you. You'll be amazed just how many jobs we can take off your hands.

Friendly advice when you need it

You can now set up a new electricity account (or move your existing account) online by going to www.jec.co.uk and clicking on 'Do it online'. However, our Customer Care Team is just a phone call away on 505460 from 7.30am to 8pm Monday-Saturday to help you with:

- Moving your electricity account
- Opening a new one
- Easy payment schemes
- Energy efficiency and getting the most from your electrical appliances
- Tariffs to meet your needs
- Advice on all our products

They will even visit your home to offer free advice. Just call to arrange an appointment.

Need help with electrics?

Things are rarely where you want them in a new home. Jersey Electricity Building Services (JEBS) can help with anything from simple jobs, such as moving light fittings and plug sockets, through to full installations of fire alarm systems and security systems.

Energy efficient heating systems

If you want to switch your gas or oil boiler to electric or upgrade an existing electric system, Jersey Electricity Heating Centre can provide you with a complete plumbing and heating installation package so you don't have to worry.

For more information, our Customer Care Team is available to help you 7.30am to 8pm Monday - Saturday.

Please call 505460 or visit www.jec.co.uk

We offer up to five years' interest free finance (subject to status and terms and conditions) and provide a full after sales and maintenance service, giving you long-term peace of mind.

Make sure your new home is safe

We recommend that the wiring in your home is checked by a competent, qualified electrician every 10 years or following a change of occupancy of the property. Our highly experienced JEBS engineers provide this service. We can also safety check all your existing electrical appliances, such as TVs, electric blankets and mobile heaters, to give you even greater peace of mind.

Help with your plumbing, too

We can also service and carry out maintenance work on your plumbing installation and central heating system (excluding gas and oil-fired boilers).

New home, new appliances?

And don't forget, if your new home calls for some new appliances, visit Jersey Electricity's Powerhouse Retail Park. You'll find big brand names in everything for the home from the latest TVs, HI-FI systems, washers, fridge freezers and dishwashers, to vacuum cleaners, food processors, kettles and toasters. You'll find us on Queens Road, open until 8pm and once again, you'll find a great team to help and advise you.

The Powerhouse, PO Box 45, Queens Road
St. Helier, Jersey, JE4 8NY
