

Clear investment. Pure energy.

MAKE THE SWITCH WITH LOW COST HEATING FINANCE

JE INSTALLATIONS

Thinking of installing a new heating system or replacing your existing gas or oil-fired boiler? Installing a highly efficient, economical electric boiler or heat pump is easy with the help of our Electric Heating Finance schemes.

Our range of high efficiency heat pumps and fuel efficient electric boilers will integrate into your existing radiator and hot water systems.

It is easy on your pocket, too. Our Electric Heating Finance schemes give up to five years' Interest Free Credit for installations up to £6,000 and Low Interest Credit for installations over £6,000.

(Subject to status, terms and conditions)

Easy finance to help you to switch to electric

Jersey Electricity has teamed up with a local finance company to offer two types of loan for customers wishing to install an electric heating system or switch from a gas or oil-fired heating system.

Both loans are available to all domestic customers, subject to status. Terms and conditions apply.

Option one - Interest Free Credit

The Interest Free Credit scheme provides up to five years' interest free credit for the purpose of installing a new system or replacing an existing gas or oil-fired boiler with an electric equivalent or high efficiency Heat Pump.

The maximum you can borrow using the Interest Free Credit scheme is £6,000.

Option two - Low Interest Credit

The Low Interest Credit scheme provides up to five years' low interest credit for the purpose of installing a new system or replacing an existing gas or oil-fired boiler with an electric equivalent or high efficiency Heat Pump.

The maximum you can borrow using the Low Interest Credit scheme is £25,000.

Please note, interest free and low interest loans cannot be combined.

How can I obtain the loan?

Whichever option you choose, you first need to obtain a quotation for the boiler or heat pump installation. Jersey Electricity Heating Centre can provide you with a full electrical and plumbing installation package. Please call our Customer Care Team on 505460.

Once you have received your quotation and are happy with it, bring it to our Customer Care Centre at The Powerhouse to sign your acceptance and complete your loan application. You will also need proof of identity, such as your passport or local driving licence. We are unable to add to the loan amount once signed, so please make sure everything you need is included.

What happens next?

We will send your application to the finance company to process.

Once approved, we will notify you and our installation team will contact you to arrange a time to start the works. You will need to return to our Customer Care Centre at The Powerhouse to sign the loan agreement.

When your installation has been completed, please contact us on 505460 and a member of our Customer Care Team will arrange to visit and view your system. They will also explain tariffs if this has not already been done and make sure you understand how to use your new electric heating system.

To find out if you can benefit from low cost electric heating and hot water or to book a FREE home survey please call our Customer Care Team on 505460 or visit jec.co.uk/turnelectric
