

We are working in your area today to help meet the increasing demand for low-carbon electricity.

Roadworks notice.

Due to the ever-increasing demand for electricity, our dedicated team is hard at work enhancing our distribution network. This vital work involves strengthening our existing infrastructure and extending new supplies to ensure we can meet your energy needs efficiently.

We appreciate your patience and understanding as we make these necessary improvements to serve you better.

Should you have any questions or need additional details, please feel free to reach out to our customer care team at **01534 505460**.

Thank you for your continued support.

Electricity

St Saviours Road, St Helier

Dear Customer,

We are writing to inform you about planned roadworks and upgrades to the electricity infrastructure in your area.

We are here to help

We welcome the opportunity to talk to you about these works and to answer any questions you have. Our engineers will be on St Saviours Road, near the junction to Brooklyn Street on Tuesday 7 April from 4:30pm until 6pm.

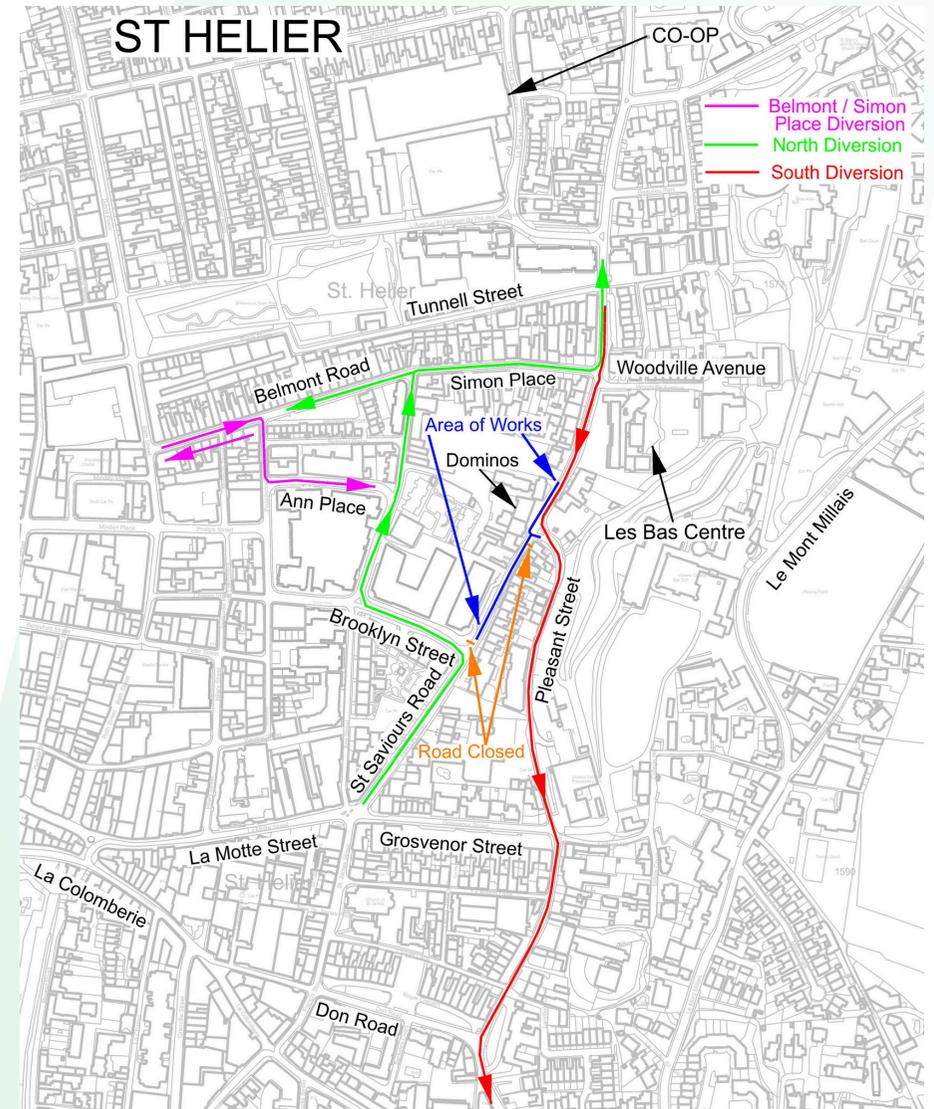

Details of the planned roadworks, Ref WO889842:

- Start Date: Thursday 2 April 2026, work will commence at 4am to ensure the site is set up properly and that all works are completed within the specified timeframe. We appreciate that this is a very early start but due to the nature of the works it is necessary to prepare the site for a prompt start.
- End Date: Saturday 18 April 2026
- Location: St Saviours Road, St Helier, between Simon Place and Brooklyn Street
- Purpose of the Roadworks: This closure is due to excavation works necessary for us to upgrade our network in the area prior to the road being resurfaced. This investment into our infrastructure is essential to enhance the reliability and efficiency of our electricity supply system.

Phasing of the work:

The work will be carried out in two locations, taking place at the same time to limit disruption.

- Simon Place and Pleasant Street, the road will be operational one-way southbound towards Grosvenor Street.
- Pleasant Street and Brooklyn Street, the road will be closed both ways.

St Saviours Road, St Helier

Property electric supply transfers:

As part of these works, we will be transferring and replacing certain customers' electricity supply from an existing cable, that is now reaching the end of its life. These works will require a shutdown of your electricity supply. If your property needs to be transferred onto the new supply, a Jersey Electricity representative will be in touch to discuss all the details. Our contractors Geomarine will keep those residents informed on day to day progress.

Will I be able to access my property?

Yes, access to properties will be maintained throughout the duration of the works. We ask that you follow the diversion signs in place. We aim to minimise disruption and complete tasks promptly. We apologise for any inconvenience and appreciate your understanding.

All businesses on and around St Saviours Road will operate as usual.

For any major updates regarding these works or our other roadworks please visit our roadworks page jec.co.uk/roadworks.

If you have any concerns or require further information, please do not hesitate to contact our customer care team at jec@jec.co.uk or on **01534 505460**.
