Single Visit

Date Requested:

Arrival Time:

Anytime (08:00 - 16:00)

Double Visit

Or As Soon As Possible

AM (08:00-12:00)

08:00

PM (14:00-16:00)

14:00

#### PLEASE NOTE:

- We require a minimum of 10 working days to process this form
- Developments/Sites that require several or more meters to be installed must be agreed with the Metering Department
- Partially or incorrectly completed forms may be rejected and are likely to delay meter installation

Should we be unable to complete this connection at the agreed time of the appointment due to reasons beyond our control, a fee in line with current rates will be charged as a result of the re-visit to the site. Also, we will not connect any meter(s) until all relevant paperwork - including mandatory photographs - are received, full payment as set out in our service quotation has been made, the supply location is environmentally safe and secure, and until the customer is signed as a JE customer where required.

I/We acknowledge that to the best of our knowledge there are no Asbestos Containing Materials (ACM's) within the area of the proposed Jersey Electricity works or we have provided all available information related to ACM's and understand that where no record of asbestos is provided or information provided is insufficient, JE may request the client to undertake an asbestos survey or material sampling prior to any works being carried out and this may delay any planned works.
