

# Domestic E20 Tariff

1 July 2022

Jersey Electricity

Economy 20 is our original two-rate tariff most often used with traditional wet radiator systems, underfloor heating or an electric flow boiler. Like the later E20+ tariff, it offers 20 hours of discounted electricity for approved space and water heating systems in any 24 hours.

Unlike E20+, the other four hours in any 24 will be an interruption to your space and water heating supply timed at our discretion. No interruption will be more than two and a half hours at any one time.

You can override the interruption if your heating system already has a booster switch fitted. The units used for heating when the booster switch is activated will be charged at our standard General Rate.

All your other appliances other than approved space and water heating run on our General Rate at all times.

**If you move into a property on the original E20 Tariff and wish to switch to the uninterrupted E20+ Tariff, please visit [www.jec.co.uk](http://www.jec.co.uk) or call our Customer Care Team on 505460 for advice.**

### Economy 20 (Rate 2) - 11.98p a unit (11.41p)

- 20 hours of discounted electricity in any 24 hours for approved space and water heating.
- The other four hours in any 24 will be an interruption to your space and water heating, timed at our discretion.
- The interruptions will be one and a half hours between noon and 3pm, and two and a half hours between 4.30pm and 7.30pm. The exact times depend on your meter. For more detail, please contact Customer Care on 505460.
- No interruption will be more than two and a half hours at any one time.

### General Rate (Rate 1) - 17.13p a unit (16.31p)

- For all units used during any 24 hours on all appliances other than space and water heating run on Economy 20.

### Daily Service Charge

Single Phase **22.17p** (21.11p)

Three Phase **49.25p** (46.90p)

<b>Economy 20 Rate (Rate 2)</b>	The Economy 20 Rate provides 20 hours of discounted electricity during each 24-hour day, for approved space and water heating systems <sup>†</sup> only. The other four hours* will be an interruption to your space and water heating supply.
<b>General Rate (Rate 1)</b>	The General Rate is for all the units used during each 24-hour period, (other than the approved space and water heating <sup>†</sup> ).

<sup>†</sup>Certain types of heating equipment may not be suitable for connection to this tariff. We will be happy to advise you.

\*Please note that the Economy 20 Plus peak time periods are determined by Jersey Electricity and may be subject to change.
